No. **97-1**

Date : April 16th, 1996

**SUBJECT : Suspension Adjustment Decals**

YEAR	MODEL NAME	MODEL NUMBER	SERIAL NUMBER
1997	ALL (EXCEPT TUNDRA II LT, SKANDIC WT/ SWT/SWT LC and MX-Z 440)	ALL	ALL

### A)

In order to ensure that proper suspension adjustments are performed on the above mentioned Ski-Doo models, we are pleased to introduce new suspension adjustment decals.

The decals will be applied at the factory. One decal will be affixed to each vehicle.

Located on the pulley guard, the decal describes settings for optimum comfort according to load on a given Ski-Doo model.

Although the decals have a similar look, they all have varying information depending on suspension characteristics.

### B)

The "customer satisfaction index", will contain questions about the decal and its contents thus providing valuable input for future decals.

### C)

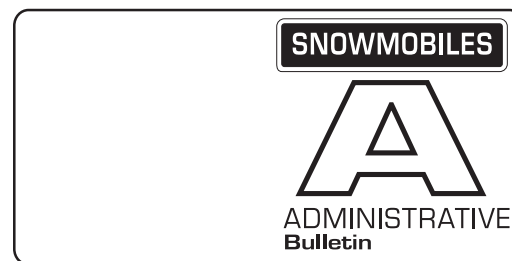

There will be a tag attached to the ignition key of each vehicle reading the following:

"Dear Customer, Have you asked your dealer to adjust the suspension to your riding style?"

The tag must only be removed by the new owner.

Date: July 26, 1996

**SUBJECT: Multi-Day Service School  
1997**

Being convinced of the importance of having qualified technicians, Bombardier Inc. will have an up-graded Multi-Day Service School for 1997. This year, the course is based on formal training programs concerning Bombardier Inc. products.

The course will provide students to qualify as Ski-Doo technicians by gaining working knowledge of all basic aspects of servicing and repairing Ski-Doo snowmobiles.

A hands-on training will familiarize students with Bombardier Technical Publications and special tools.

The hands-on training program is oriented on testing and servicing procedures of various systems and will cover all Bombardier Ski-Doo components.

To qualify for his certificate, the student will go through an evaluation based on hands-on ability, oral quizzes and a written test. A copy of the student's written exam will be sent to you.

## Important

Do not forget, this course is mandatory to every new Ski-Doo dealership. This course is also open to every Ski-Doo mechanic who would like to improve, as well as to any new Ski-Doo mechanics.

A detailed program has already been mailed out to you. If you have not received our program, or if you have any questions, please contact our Technical Training Department (514) 532-2211 Ext. 5717.

Fill out the registration form, and the questionnaire, as soon as possible and send it by mail or fax it to (514) 532-5077. Your application must be received 3 weeks before the date you wish to attend the course.

Applications will be accepted on a "first come, first served" base.
